

STRUCTURED REINSURANCE

STRUCTURED REINSURANCE

What we do

- Write a worldwide portfolio principally on an aggregate excess of loss basis and seek to achieve diversification within each structure by taking a multi-line, multi-year approach
- Retention level aggregate covers and co-reinsurance frequency covers are the main area of focus
- Can consider adverse development covers or such retroactive covers as required
- Products can be tailored to specifically address Solvency II issues
- Business is split between London market business and international business with the current client base principally in the UK, US and Continental Europe and to a lesser extent in the Middle East and Far East
- Provide coverage for most classes of business that can currently be written in the Lloyd's market

Why we add value

- Work with our clients to design innovative solutions which address their needs for capital efficiency and optimisation
- Meaningful capacity with business often written on a 100% basis
- Technical expertise, strong pricing and modelling capabilities means we can address individual requirements
- Empowered to make decisions
- Long standing relationships with our client base to achieve long term results
- Flexible approach
- Efficient client service

About Canopus

Canopus is a global speciality (re)insurer with underwriting operations in Australia, Bermuda, Netherlands, Singapore, the UK and US. We are privately owned and are proud to offer an independent view of risk – our expert people ask the difficult questions so that our clients get exactly the solutions they need.

ILS

Our ILS platform offers investors straightforward access to the (re)insurance markets, using the underwriting skill and distribution of the Canopus group.
